

SOLIMAR

Since 1985

E-Z In Silo Fluidizer Kits

***Installs From The Outside - Quickly And Easily
Retro-Fits Most Hopper Aeration Openings***

E-Z In Silo Fluidizer assemblies are ideal for retrofitting existing hoppers or bins, or when frequent inspection and maintenance is required. Once installed, you can also perform regular inspection and maintenance as required from the outside, **without confined space entry requirements** – saving you both time and money.

Design Features

- Used with Solimar's proprietary silicone disk (Silo Fluidizer) that **will not plug, harden or crack**.
- Unique gasket material **seals tight**-compensating for any imperfections with no leaks
- **Gasket is permanently affixed** to the mounting plate
- Use with **flat or conical hoppers**
- **Zinc plated carbon steel** mounting plate offers excellent wear resistance
- Available in **stainless steel** (oval style) for food grade applications
- Available in **three styles** to retro-fit with most existing hole patterns

**Insist on genuine Solimar disks with
the trademarked Radial Ridge Design.**
