

Regulatory Compliance Statement for rubber based bin discharge aids

Silicone Rubber Product Numbers 4124, 4134, 4824, 4834, 4124MD, 4824MD
EPDM Rubber Product Numbers 4154, 4164, 4854

Intended Food Contact Conditions: Use with all dry food types without restriction.

We confirm that the above mentioned products are in conformity with the applicable requirements of the following regulations and standards:

- Regulation (EC) no.1935/2004 on Materials and Articles intended to come into contact with food.
- Regulation (EC) no. 2023/2006 on Good Manufacturing Practice for materials and articles intended to come into contact with food.
- 3-A Sanitary Standards for Multiple-use rubber and rubber-like materials used as product contact surfaces in dairy equipment, Number 18-03 – Applicable material and compatibility criteria found in Sections C and D.
- Compositional and extraction requirements of FDA 21 CFR 177.2600 Rubber articles intended for repeated use.

Silicone Rubber Products

In addition to the above, the Silicone rubber products are in compliance with the requirements of BfR XV. Silicones and the French Order of 25 November 1992 on Silicone Elastomers:

EPDM Rubber Products

EPDM rubber products are also in compliance with:

- Council of Europe Resolution AP (2004) on rubber products intended to come into contact with foodstuffs.
- French regulatory requirements for food contact rubber - Order of 9 November 1994 relating to materials and rubber articles in contact with foodstuffs, food products and beverages.
- BfR recommendation XXI
- Dutch Warenwet requirements
- Italian requirements

This compliance statement is based on formulation information received from material suppliers, FDA extraction testing with distilled water and n-hexane, and quality control systems in place at Solimar. Supporting documents are available and can be disclosed to the competent authority on request.
